

Summary of Significant Changes to the NIH GPS for October 2021 Version

(Guide Notices Issued Before October 1, 2021)

The revised NIH Grants Policy Statement (NIHGPS, rev. 12/17/2021) represents an update to the April 2021 version and is applicable to all NIH grants and cooperative agreements beginning on or after October 1, 2021. While the update does not introduce any new material for the first time, it incorporates new and modified requirements, clarifies certain policies, and implements changes in statutes, regulations, and policies that have been implemented through appropriate legal and/or policy processes since the previous version of the NIHGPS dated April 2021. The 12/17/2021 revision supersedes, in its entirety, the NIH Grants Policy Statement (April 2021) as a standard term and condition of the award.

Notable Policy Changes: Implements new policies and provides clarification of existing policies that were previously announced in the NIH Guide since October 2020 and listed at [Grants Policy & Guidance](#).

NIH Policy Changes

Section	Significant Changes	Reason
PART I: NIH Grants – General Information	Section 1.2 Definition of Terms <ul style="list-style-type: none"> • Added the definition for Honoraria • Added the definition for Offset 	<ul style="list-style-type: none"> • Added to provide context for policy instruction changes.
